About Me

Blockchain: DApps · Solidity · Web3.js · Truffle · Ethereum · Metamask · Remix IDE · Cryptocurrencies · Hardhat
Programming: C++/C# · Python · JavaScript · HTML/CSS
Experience with: React.js · SQL · Smart Contract Development · Django · Panda

Experience

Blimphomes: Full Stack Developer   May. 2022 – Aug. 2022 | Toronto, CA

- Worked in Web Application Development in React JS Environment.
- Utilized Django and Panda for creating and maintaining applications.

Canadian Automobile Association: Developer   May. 2021 – Dec. 2021 | Toronto, CA

- Worked on revamping a regression automation project for the company. The main objective was to improve execution time and change from the recording to the modular architecture.

Manulife Financial: Salesforce Engineer (Services)   Sep. 2020 – Dec. 2020 | Waterloo, CA

- Developed a Lightning web application where customers can post their feedback. The good ideas are developed, delivered and rewarded at development stage. Additions can be made to the ideas through comment functionality.

Manulife Financial: Salesforce Engineer (Platform)   Jan. 2020 – May. 2020 | Waterloo, CA

- Data Migration Tool: A React application that migrates test data from lower-level environments to higher-level ones since test data is removed from Sandboxes after a sandbox refresh. Before this application, test data was manually migrated, which was time-consuming and arduous.

Allstream: Application Developer   May. 2019 – Aug. 2019 | Mississauga, CA

- Developed Lightning web components as part of the Salesforce Migration from Classic to the lightning environment.

Certifications

- BTA Certified Blockchain Developer - Ethereum   Jan. 2022
- BTA Certified Blockchain Solution Architect   Jan. 2022
- IBM Blockchain Essentials   Jan. 2022

Education

University of Waterloo   Sep. 2018 – April. 2023 | Waterloo, CA
HONOURS BACHELOR OF COMPUTER SCIENCE
